🎓 EDUCATION

Bachelor's Degree

Faculty of Economic Cybernetics, Statistics and CS, ASE

2024 – 2027 | Bucharest

Computer Science and Economy

High School Diploma

Cantemir-Vodă National College

2020 – 2024 | Bucharest

Mathematics and Computer Science

🧠 TECHNICAL & SOFT SKILLS

Strategic Planning

Computer literacy

Problem Solving

Programming & OS

C/C++, Bash (Linux), JavaScript, SQL, Node.js, React

🏆 CERTIFICATES

Oracle Database Programming With SQL

ICDL/ECDL Certificate

Cyber Security 101

TryHackMe

👤 PROFILE

I am a Computer Science student focused on creating efficient back-end architectures. My experience in volunteer work allowed me to work with Node.js and Git, while my academic background gave me a solid understanding of C++, SQL and Linux systems.

💼 PROFESSIONAL EXPERIENCE

Backend Developer (Volunteer)

SISC (Sindicatul Studenților din Cibernetică)

11/2025 – Present

- Designed and maintained REST APIs using JavaScript,
- Managed relational databases within a Laragon environment, ensuring efficient data storage and retrieval, utilizing Yaak for rigorous API testing.

📁 PROJECTS

Linux User Management CLI (Bash) 🔗

04/2025 – 05/2025

- Co-developed a CLI-based User Management system featuring secure registration, authentication (login/logout), and active session tracking.
- Automated identity verification by integrating an email-based confirmation workflow.

Node Data Entry App

11/2025

- Developed a RESTful API from scratch using native Node.js modules, managing HTTP requests and responses without external frameworks.
- Performed API testing and debugging using Yaak, ensuring correct endpoint functionality and status code handling
- Integrated a relational database (MySQL) managed via Laragon to ensure persistent data storage and integrity.

Personal Portfolio Website (React, HTML5, CSS) 🔗

01/2026 – 02/2026

Developed a responsive, modern web application using React, implementing a sticky side-navigation and asymmetrical layout.
